

PADI Open Water Certification Class (During COVID-19 Pandemic)

Open Water Scuba Certification is a 3 part process: Academics, Confined Water training (in a pool), and 4 Open Water Dives (in a lake, quarry or the Ocean). It qualifies for 1 College credit through ACE. The time is divided between classroom instruction in the theory of diving and adapting to the underwater world, and pool sessions where you will learn the skills to dive. Each class is designed to increase your knowledge and understanding and build your confidence in diving.

Before COVID-19 Pandemic there were 2 ways to complete the academics, conventional face-to-face classroom lecture or eLearning. The conventional face-to-face classroom lecture is not being offered at this time due to COVID-19 precautions, therefore we will use eLearning. eLearning is an on-line computer based training for age 10 and older that replaces the traditional classroom lecture and allows the student to log in and work on the academics at their own pace/schedule with an internet connection. It will cut the students time with the instructor in half since you are completing the Academics on line.

Due to the COVID-19 #s increasing, the State of CT has limited the number of people in a program to 5, this includes our Scuba instruction Program. The schedule for our Open Water Scuba classes has obviously been disrupted by this new mandate and some of the pools we used no longer have room for Scuba. We now have secured a pool where we will not have to share the pool with any one but the people taking Scuba instruction. Due to the cost of renting the pool and the expenses associated with running the class we have regularly Scheduled Classes on Thursday evening. Other evenings are available if you have a group of 4, we can set up a group class on any of the other week nights.

We are also conducting Private Pool Training where we create a custom schedule that works for your unique schedule, when the pool we use is available (most weekdays evening & Sunday evenings)

Private Lessons Schedule:

Private Open Water Certification available, call us to create your own custom schedule at your home pool or our public pool.

eLearning at your own pace on your computer at home.

Three 2 hour Pool class. days & time (TBD) (Students must attend all sessions for certification)

Group Lessons Schedule:

eLearning at your own pace on your computer at home.

Three 2 hour Pool class. days & time (See Below) (Students must attend all sessions for certification)

Classes usually meet @ 6:30 to 8:30 pm. contact us to find out when the next class is starting
