

What we offer:

Flexibility

Because we offer scuba lessons at many of the local YMCA / YWCAs, we can meet even the busiest schedule. Regardless of where you live or when you need to be finished, we can accommodate you through our group or flexible private classes. Give us a call and we will design a course around you. Private classes are available for your convenience.

Travel Program

OK, now that I have got my certification card, where do I go diving? We won't send you diving, we will take you diving. Ski & Scuba Connection takes groups of divers, their family and friends to some of the most renowned dive destinations in the world. From historic wrecks off the coast of Northeast to the warm, blue waters of the South Pacific, we go there. Our friendly Staff has decades of dive experience. We cater for both students looking to complete their Open Water Diver courses and experienced divers wanting a challenge to their existing skills or to enhance their diving knowledge. So, whether you are interested in the historic wrecks of the Northeast or an exotic tropical destination, our staff can help you prepare for your dive adventure.
